

## **COVID 19 New Protocols**

**As you may have heard, the Department of Public Health made an announcement last week that Faith communities could now return to full capacity provided proof of vaccination is checked, masks are worn and contact tracing is kept for two weeks. In keeping with this, starting next week you will not need to call the office and pre-register, but you will need to bring proof of vaccination and a form of ID with you to attend mass. You can show your NLVax Pass or record. ID can be a picture ID or two items such as your MCP card and a piece of mail showing your name and address. We understand this is a big change for everyone, but it is good news, news that we have been waiting for, for a long time! If you are not comfortable with showing your vaccination record, the 9:00 am Sunday Mass at the Basilica will not require the record and will continue with the social distancing rules as they are now. Thank you in advance for your understanding and patience with our volunteers and we move forward.**
